be yours A Love
C.O. Gregory

To the Faculty and Student Body:

It is with great pride and a feeling of humbleness that I take the privilege to write a message to you. This has been one of the most successful school years of my career, and to each of you I extend sincere thanks for your fine spirit of cooperation which has made this success possible.

Your interest in every phase of our school work together has proven above any I had anticipated. You have each worked, and worked hard, but you have not forgotten to enjoy the happy occasions that appeared now and then during the school year.

Therefore, fellow students, in wishing you happiness and success, may I charge you to be ever observing in the field of learning. When you begin a task never leave it until you know it is well done. You are a success or a failure owing to the way you stick to a job.

May the students of Sudan always be found on the successful side of life is my sincere wish.
