August 22, 2019

Sudan Independent School District received our 2019 State Accountability Ratings and Distinctions where both campuses received either a rating of Met Standard or Exemplary, along with several Distinction Designations. As the required standards for students have steadily increased, both the Sudan Elementary and High School campuses have continued impressive gains on the performance index reports related to student success.

Sudan Elementary earned 1 Distinction Designation in the area of Science and was rated as an Acceptable Campus with a C rating earning 79 out of a possible 100 points. This distinction was given to the top 25% of schools in our Campus Comparison Group, which are school groupings that compare similar schools in respect to size and demographics.

Sudan High School earned 5 Distinction Designations and was rated as an Exemplary Campus with an A rating earning 96 out of a possible 100 points. Included in these Distinctions, was Mathematics, ELA/Reading, Social Studies, Closing the Gaps, and Postsecondary Readiness. Sudan High School students earned their way into the top 25% of their Campus Comparison Group in these 5 Distinction categories, along with above state average in student performance, student participation rates, and graduation rates.

Additionally, Sudan ISD was one of only 257 districts in the state, out of approximately 1,200 districts statewide, to earn an A rating, which is an Exemplary rating earning 93 out of a possible 100 points.

The administration and staff at Sudan ISD are extremely pleased with the exciting things happening with the campuses and students at Sudan Schools and wish to commend our parents, students, and staff on their hard work. Let us all celebrate these accomplishments for a short time and move on with doing what we do....Hard Work producing a Handmade Education student by student.
