August 17, 2022

Sudan Independent School District received our 2022 State Accountability Ratings and Distinctions where both campuses received either a rating of an A or B campus, along with several Distinction Designations. As the required standards for students have steadily increased, both the Sudan Elementary and High School campuses have continued impressive gains on the performance index reports related to student success.

Sudan Elementary earned 2 Distinction Designations in Mathematics and Postsecondary Readiness. These distinctions were given to the top 25% of schools in our Campus Comparison Group, which are school groupings that compare similar schools in respect to size and demographics. The campus received an overall rating of a “B” earning 84 out of a possible 100 points

Sudan High School earned 6 of 7 Distinction Designations and was rated as an “A” campus rating earning 91 out of a possible 100 points. Included in these Distinctions were Mathematics, ELA/Reading, Science, Comparative Academic Growth, Postsecondary Readiness, and Comparative Closing the Gaps. Sudan High School students earned their way into the top 25% of their Campus Comparison Group in these 6 Distinction categories, along with above state average in student performance, student participation rates, and graduation rates.

Additionally, Sudan ISD was one of only 396 districts in the state and one of only five 2A districts in Region 17, out of approximately 1,200 districts statewide, to earn an “A” rating, which is an Exemplary rating earning 94 out of a possible 100 points.

The school board, administration, and staff at Sudan ISD are extremely pleased with the exciting things happening with the campuses and students at Sudan Schools and wish to commend our parents, students, and staff on their hard work! Let us all celebrate these accomplishments for a brief time and move on with doing what we do....Hard Work producing a Handmade Education student by student.
